

## **Campbell, K et al 2020 Abstract**

### **Using EMG To Help Manage Urinary Incontinence**

#### **Objective**

The aim of the proposed research is to investigate the feasibility of conducting a future trial of physiotherapeutic management of urinary incontinence (UI) in athletic women, using **electromyography (EMG) - NeuroTrac MyoPlus Pro**, Verity Medical - to collect data on pelvic floor muscle (PFM) activity.

#### **Researchers**

K. Gillian Campbell and Avril Drummond, Faculty of Medicine and Health Sciences, University of Nottingham, Nottingham, UK; and Mark E. Batt, Centre for Sports Medicine, Nottingham University Hospitals, Nottingham.
